DSA

Data Structures and Algorithms

- 1) Find out all the list of companies which are conducting placement drives in DSA.
- 2) What is the syllabus of DSA in GATE?
- Q.) Identify variables in the amazon home screen :-

string deals;

float price;

string address;

string email;

float rating;

int product_id;

unsigned int phone-number;

string profile;

string Brand-name

OTP = int

- Q.) Find out all the set of variables in a ticket:-

price = float

place = string

time = int

seat-number = int

date = int

ticket-id = int

start-point = string.

- 3.) Find out the what are the set of variables
Inc(i) amazon invoice bill.

(ii) Gas bill

(iii) current bill.

1.) List of the companies which are conducting placement drives -

Google

Microsoft

Amazon

Uber

Flipkart

Phone pay

Netflix

Adobe

Swiggy

Intel

TCS

Infosys

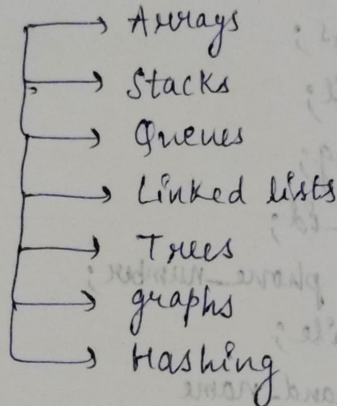

LinkedIn

Wipro

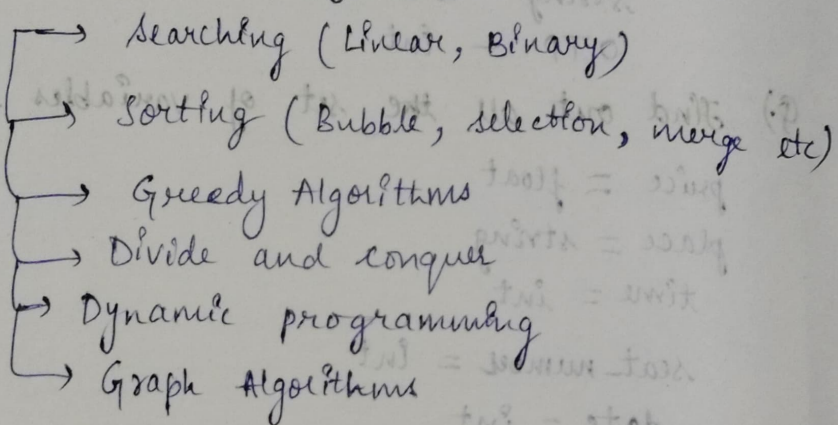

Oracle

2.) Syllabus of DSA in GATE exam :-

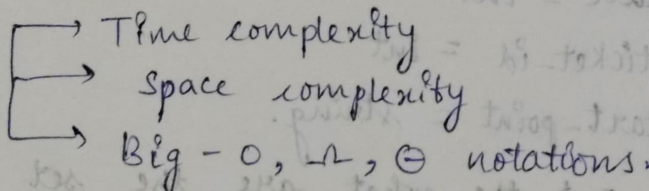

Data Structures

Algorithms

Analysis

3.) (i.) Amazon invoice bill -

string invoice-number;

string name;

string shipping address;

string ~~the~~ billing address;

string product-name;

float price;

string payment-method;

unsigned int phone-number;

int date;

float tax;

int Discount;

int quantity;

(ii) All the variables in gas bill :-

int bill-number;

string consumer-name;

int consumer-id;

int date;

string address;

float bill-amount;
